Ergonomic Working:

ZONE 4

REDUCE INACTIVITY

Introduce movement.

Regular changes to your working position will help you work and feel better.

Fellowes

How to use a Height Adjustable Desk

- 1. Set your table height:** Whether sitting or standing ensure your table is set so your forearms are horizontal, your elbows are roughly at a 90° angle and your wrists are in a neutral position.
- 2. Screen positioning:** Adjust your monitor so the top of your screen/s are roughly level with your eyes and is positioned so you can touch the screen with your fingertips.
- 3. Sit, Stand and Move:** Change your position regularly, at least every hour to increase circulation, reduce fatigue and promote productivity.

TIP: Use the built-in memory settings to ensure you get the correct height every time.

Certifications:

Ergonomic Excellence by Fira International

EN ISO 9241-5 1999 Ergonomic requirements for office work with visual display terminals (VDT's): part 5: 1999, workstation layout and postural requirements.

Aftercare:

Cleaning: Wipe over with a damp microfibre cloth. Do not use any cleaning solutions.
